

Fig. 3.4 Space-time diagram for the aftershocks in region A. Events are projected along the D1($133^{\circ}15.94'W$, $35^{\circ}25.93'N$) to D2($133^{\circ}27.24'W$, $35^{\circ}10.41'N$) direction shown in Fig. 3.1b. The earthquakes with $M \geq 4.5$ are marked by stars. The main shock and the largest aftershock in region A are indicated also by "M7.3" and "M5.0", respectively.
